Project Contributions and Development Notes

Work Distribution

Mohammed's Contributions

- Main developer of the website
- Scripted the creation of the NFT metadata
- Deployed the contracts to the Sepolia testnet
- Integrated the frontend and backend

Preston's Contributions

- Developed the trading contract
- Integrated the NFT contract and wrote tests for both
- Authored the project documentation
- Enhanced the website's aesthetics

AI Tools Used

Generative AI was used extensively to assist with the development of the project. We utilized Claude, ChatGPT, and DeepSeek.
